CALL FOR SPECIAL ISSUE OF PAPERS FROM GLOBELICS 10

Title: The innovation and development in developing countries

Guest Editors: Dr. WU Dong and Prof. Mammo Muchie

I. Introduction

We expect a substantially large number of excellent papers will be submitted to the 10th Globelics international conference: Hangzhou, China which will start on November 9-11, 2012.

We are sending this message to all those who will present papers, if they would be willing to publish their papers in African Journal of Science, Technology, Innovation and Development (AJSTID, see www.AJSTID.Com).

We will be pleased to consider papers that have passed the Globelics 10 peer review. If you are interested in AJSTID, please submit your paper to AJSTID. It should be noticed that papers submitted to the journal will undergo the journal's review again.

II. Guidelines for Contributing authors

1. Please make sure the length of your paper is 8000 words.
2. You need to submit the paper in the AJSTID format, not the Globelics format, i.e. first submission to last revised submission (please see attached samples in word and PDF files): Title, Abstract, Keywords, the main body, Notes and References. If you can provide JEL classification, that is fine. If not, we will provide them.
3. You need to follow AJSTID Referencing style in the main text and in the list of References at the end. Please make sure from the start that all references in the main text are matched to the list of References.
4. Please make sure the references at the end of the paper are complete and there are no missing details such as Publisher name or place of publication for Books, issue no or pages for journal articles and so on. If you do not have all information required for an item, please Google and find out and include them. This will avoid serious delay in the publication schedule.
5. If you have language difficulty, please hire a professional editor to edit the paper before submitting the paper. If the Editors-in-Chiefs feel that a final paper submitted has language problem and unclear even after quality controlled by the Guest Editor(s), they reserve the right to return it to the author to professionally edit the paper and resubmit.
6. Please do not use scanned figures or tables. You need to reproduce Tables and Figures from following the original sources and submit. Scanned figures and tables do not come out well in the final print and affects the journal quality. We will reject such papers or will ask you to drop such figures and tables.
7. Please make sure Tables and Figures can be copied and pasted as one item and not as too many subcomponents which can move and distort the figure or table.
8. Please avoid objects (e.g. excel charts, graphs, equations etc. - these should be converted into
III. Reminding authors what Reviewers will look for

The reviewers will look if the paper has original findings and contribution at either the empirical or theoretical and/or both. They will look for high quality in the scholarly contributions of the paper.
In addition they will look for the following:

A. Suitability of Topic
1. Is the topic appropriate for publication in AJSTID?
2. Is the topic important to colleagues working in the field?

B. Research Questions/ Methodology/ Literature Review
1. Are the research questions/ hypotheses clearly discussed?
2. Are the research methodology/methods employed appropriate and sound?
3. Is the literature review appropriate, adequate, and robust?

C. Data, Analysis, Interpretation, and Linking to Relevant Literature
1. Is the paper based on sound/robust data? If not, why not?
2. Is the analysis sufficiently comprehensive and balanced?
3. Are the discussions linked to relevant literature?
4. How would you describe the technical depth of the paper?
5. How would you rate the technical novelty of the paper?

D. Structure and Presentation
1. How would you rate the overall organization of the paper?
2. Are the title, abstract, Key words satisfactory?
3. Is the length of the paper appropriate? If not, recommend how the length of the paper should be amended, including a possible target length for the final manuscript.
4. Are symbols, terms, and concepts adequately defined?
5. Are Tables, Charts and Figures well integrated in the discussion?
6. How do you rate the English usage?
7. How would you rate the Bibliography?

IV. Recommendation
